

UX Lead/Manager

1st Main is a digital agency focused on building digital products - apps and web platforms. We are a dynamic team of strategists, designers and engineers whose excitement for digital products and experiences is apparent in everything we do. We partner with small and large businesses to produce purposeful and compelling products for the future. We are thinkers and creators who consider the function of their products equal to aesthetics. We are looking for a designer who is driven, curious and passionate to join our team at our Koramangala office

Send your resume and portfolio to: careers@1stmain.co

Basic Qualifications

- BA/BS degree or equivalent, in graphic design, design communication, human-computer interaction or a related field, or a combination of education and experience in a relevant field
- 4+ years of experience creating interfaces, large-scale digital experiences, or applications

What we want to see

- A truly impressive background with experience creating interfaces, large-scale websites, or applications.
- Experience leading interdisciplinary teams in creating killer products that consider innovation and usability. 1st Main is highly collaborative—we need someone who will not just listen but anticipate the needs, concerns, and input from teammates across departments.
- Experience with senior clients. Someone who is an expert at handling themselves and our clients in every imaginable situation.
- Engaging presentation style and visual communication skills—you should be excited about your work and know how to spread that enthusiasm.
- Someone open to feedback who knows how and when to defend design choices.
